QUALIFICATIONS

Description

Class

Category 1 – Buildings and structures

1 – Concrete structures and parts thereof	9
2 – Metal structures	9
3 – Wooden structures	9
4 – Masonry, plaster and stonework	9
5 – Plaster, painting and other coatings	9
6 - Joinery	9
7 – Work with non-structural profiles	9
8 – Plumbing and ducts in buildings	9
9 – Installations with no prior qualification	9
10 – Restoration of historical and artistic properties	9

Category 2 – Communication routes, urban development projects and other infrastructure

1 - Roads and aerodromes	9
2 – Railway tracks	7
3 – Concrete bridges and viaducts	9
4 – Metal bridges and viaducts	9
5 – Engineered structures	9
6 – Basic sanitation	9
8 – Paving	9
9 - Landscaping	9
10 – Sport and leisure facilities	9

Category 3 – Hydraulic infrastructure projects

1 – River projects and hydraulic schemes	9
2 – Port projects	9
3 – Coastal protection projects	9
4 – Dams and dykes	9
5 - Dredging	9
6 – Marine outfall	9

Category 4 – Electrical and mechanical installations

1 – Low voltage electrical installations (up to 50 kVA)	9
2 – Transformer stations up to 250 kVA	9
3 – Transformer stations over 250 kVA	9
4 – Electrical networks and installations with an operating voltage up to 30 kV	9
5 – Electrical networks and installations with an operating voltage over 30 kV	9
6 – Energy generating facilities (up to 30 kV)	9
7 – Energy generating facilities (over 30 kV)	9
8 – Traction substations	9
9 – Telecommunications infrastructure	9
10 – Fire, safety and detection systems	6
11 – Lift installations	6
12 – Heating, ventilation, air conditioning and refrigeration	8

13 – Environmental treatment stations	8
14 – Gas distribution networks and branches; gas installations and devices	6
15 – Oil product storage installations and fuel filling stations	8
16 – Compressed air and vacuum networks	6
17 – Transport system signage and support installations	6
18 – Centralised technical management	8
19 – Other mechanical and electro-mechanical installations	7
Category 5 – Other work	
1 – Demolitions	9
2 – Earth moving	9
3 – Tunnels and other geotechnical engineering work	9
4 – Special foundations	9
5 – Rehabilitation of structural concrete components	9
6 – Retaining walls and anchor points	9
7 – Drainage and slope management	9
8 – Concrete reinforcement	7
9 – Repairs and surface treatment in metal structures	9
10 – Formwork	7
11 – Waterproofing and insulation	9
12 – Scaffolding and other temporary structures	7
13 – Farming and forestry tracks	9
